Nomos One Accessibility Conformance Report

International Edition

(Based on VPAT® Version 2.5)

Name of Product/Version: OneLease v2025.1.1

Report Date: April 2025

Product Description:
OneLease is a platform that hosts a series of lease accounting-focused reports. It works in conjunction with the Nomos One platform, which stores customers' lease portfolio data, to produce sleek, user-friendly reports that support users in meeting their lease accounting requirements. The Nomos One development team is continually improving OneLease, with the goal of evolving it into a comprehensive solution for both lease management and lease accounting.

Contact Information: design@nomosone.com

Notes:

We have marked each criteria that does not fully support with a phase to indicate improvement focus. Where Phase 1 = Short Term (2025), Phase 2 = Mid term (2026), Phase 3 = Long term (2027 onwards).

As part of our SSO support, any third party SSO providers that get setup with us are also part of the login process. At this time, the list of providers includes: Microsoft Entra, OneLogin, Okta, ADFS. These have not been evaluated as part of the product accessibility as they are 3rd party tools that we don't have access to. But I've included links to their accessibility statements (where I've found them).

Evaluation Methods Used: Testing is based on knowledge of the product functionality and testing with Apple VoiceOver.

Terms

The terms used in the Conformance Level information are defined as follows:

- **Supports**: The functionality of the product has at least one method that meets the criterion without known defects or meets with equivalent facilitation.
- **Partially Supports**: Some functionality of the product does not meet the criterion.
- **Does Not Support**: The majority of product functionality does not meet the criterion.
- **Not Applicable**: The criterion is not relevant to the product.
- **Not Evaluated**: The product has not been evaluated against the criterion. This can only be used in WCAG Level AAA criteria.

WCAG 2.x Report

Tables 1 and 2 also document conformance with:

- EN 301 549: Chapter 9 - Web, Sections 10.1-10.4 of Chapter 10 - Non-Web documents, and Sections 11.1-11.4 and 11.8.2 of Chapter 11 - Non-Web Software (open and closed functionality), and Sections 12.1.2 and 12.2.4 of Chapter 12 – Documentation
- Revised Section 508: Chapter 5 – 501.1 Scope, 504.2 Content Creation or Editing, and Chapter 6 – 602.3 Electronic Support Documentation.

Note: When reporting on conformance with the WCAG 2.x Success Criteria, they are scoped for full pages, complete processes, and accessibility-supported ways of using technology as documented in the WCAG 2.0 Conformance Requirements.

Table 1: Success Criteria, Level A

Notes: For the purpose of this assessment I've classed OneLease as Web and Software, as it is a web application that has a lot of behaviour that software applications have, so we're wanting to make sure all bases are covered.
